SUBJECT: Reduction in Sentence

This memorandum is in response to your Request to Staff dated January 4, 2023, in which you requested to be considered for a reduction in sentence under medical conditions criteria and concerns about COVID-19.

At this time, you do not meet the guidelines outlined in Program Statement 5050.50, Compassionate Release/Reduction in Sentence: Procedures for Implementation of 18 U.S.C. 3582 (c)(1)(A) and 4205(g), Section 3a., Terminal Medical Condition, Section 3b., Debilitated Medical Condition and Section 4b., Elderly with Medical Conditions. You do not have a terminal illness, with a life expectancy of less than 18 months and you are independent with your self-care. You do not have debilitated medical condition and you are independent of your activities of daily living and your current medical conditions remain under control. Also, you do not meet the time served under elderly with medical conditions criteria. Accordingly, your RIS request is denied at this time.

At present, you are receiving appropriate medical care and treatment by Health Services staff. We are committed to providing you with the necessary and appropriate care for your medical needs.

The BOP is taking extraordinary measures to contain the spread of COVID-19 and treat any affected inmates. We recognize that you, like all of us, have legitimate concerns and fears about the spread and effects of the virus. However, your concern about being potentially exposed to, or possibly contracting, COVID-19 does not currently warrant an early release from your sentence. Accordingly, your RIS request is denied at this time.

If you are not satisfied with this response to your request, you may commence an appeal of this decision via the administrative remedy process by submitting your concerns on the appropriate form (BP-9) within 20 days of the receipt of this response.
